WANTED Technologies posts 67% revenue growth and reaches, for the first time, breakeven in the first quarter of fiscal 2007

MONTREAL, QUÉBEC, November 30, 2006. WANTED Technologies Corporation (“WANTED” or the “Company”) (TSX Venture: [WAN](#) - [News](#)), a leading supplier of real-time sales and business intelligence solutions for the recruitment and media classified industries, reported its results today for its 2007 first quarter ended September 30, 2006. All amounts are in Canadian dollars unless otherwise indicated.

Highlights

- 67% revenue growth in the 1st quarter of fiscal 2007 compared to the same period of 2006
- Breakeven achieved during the quarter for the first time in WANTED’s history
- Signature of the first contracts for residential real estate advertising market solutions with prestigious US newspapers

Summary of Financial Results for the 1st Quarter of Fiscal 2007

Sales for the three-month period ended September 30, 2006 amounted to \$656,345, 67% higher than sales of \$394,185 for the same period last year. The increase was due to the recruitment of new customers. It should be noted that WANTED derives its revenues from renewable annual contracts that generate recurring revenues for the Company. At September 30, 2006, contracts in hand represented slightly over \$2.6 million in annual revenues, 85% more than the \$1.4 million represented by contracts in hand on September 30, 2005. The concept of recurring annual revenues presumes the renewal of all the customer contracts in hand at the date of the calculation, as most of WANTED’s customer contracts cover a 12-month period.

During the quarter, WANTED announced its first contracts for residential real estate market solutions with two prestigious US newspapers, Cox Newspapers and the Houston Chronicle, an affiliate of Hearst Newspapers.

“We are very pleased with the significant increase in our first quarter sales. But we are even more proud of having reached a key milestone in our development, namely the financial breakeven point for our operations. Furthermore, we were able to achieve this while simultaneously investing time and resources in research and development and establishing new structures. The launch of real estate advertising solutions and our first contracts for this market segment strengthens WANTED’s lead position in the US market,” said David Tanguay, President and Chief Executive Officer of WANTED.

The Company’s operating costs were \$636,018 for the three-month period ended September 30, 2006, 96% higher than costs of \$323,744 for the same period in fiscal 2006. This increase is directly related to the strengthening of operating, marketing and administrative structures and resources to enable WANTED to sustain its sales growth in the upcoming quarters.

For the first quarter ended September 30, 2006, the Company reported net earnings of \$15,834 (\$0.001 per share) compared to a net loss of \$394,447 (\$0.035 per share) for the same period last year.

Financial Position

At September 30, 2006, WANTED had working capital of \$1,857,707 compared to \$1,879,048 at June 30, 2006. Cash and short-term investments stood at \$1,788,034 at September 30, 2006 compared to \$1,804,271 at June 30, 2006. Total assets were \$2,800,538 at September 30, 2006, compared to \$2,580,209 at June 30, 2006.

Complete information including unaudited financial statements for the quarter ended September 30, 2006, the notes thereto and the management discussion and analysis will be available via the Internet at www.sedar.com and on the Company’s website at www.wantedtech.com, as of Friday, December 1st, 2006.
